

Birth Register of Dr. Jesse R. Wanner, Jr:
Tyaskin/Nanticoke District
Wicomico County, Maryland
1914-1922

Transcribed by Jane Beardsley Burt
Edited by G. Ray Thompson, Ph.D.

This is a 1914 to 1922 birth registry from the physician's office of Dr. Jesse Rosenberger Wanner. The registry for the doctor's office detailed the date of birth, the physician or midwife carrying out the birth, and the receipt for the birthing delivery payment. Dr. Wanner's practice covered the Nanticoke and Tyaskin district of western Wicomico County, Maryland. Dr. D. Allen Fields took over Dr. Wanner's practice in Nanticoke in 1925. In later years, Wanner became the head of pediatrics of Peninsula General Hospital and transferred his practice to Salisbury. On December 19, 1947, Dr. J.R. Wanner died at PGH in Salisbury, of a heart condition from which he had suffered for several years. He was buried in his hometown of Kutztown, Pennsylvania. The birth register was donated to the Wicomico Historical Society, whose collection now resides at the Nabb Research Center.

In the 17th and 18th century, the Church held responsibility of birth certification and baptism documentation. Problematically, Maryland citizens were not all affiliated with the church which resulted in individuals being absent from birth records. Consequently, the Maryland General Assembly sought to make birth certification a civil issue by the enactment of a state law (Chapter 130, Acts of 1865). The County Circuit Court was granted birth certificate responsibility from 1865-1880s, but many citizens failed to submit certification with the courts. Finally, the General Assembly passed a law in 1898 (Chapter 312, Acts of 1898) stating that birth records must be kept by the Boards of Health in the counties.

According to the Maryland State Archives website:

The 1898 law dictated that "the record of a birth shall state the date and place of its occurrence, name in full, sex and color, and the number of the child, whether living or still born, and the names, color, occupation, birth place and residence of parents, name and address of the physician, midwife or attendant at the birth." In 1970, the only change to county birth certificates took place when confidential medical information was added.

At first, compliance with the law on the local level was incomplete. As the State Board of Health gradually increased its control over local boards, registration became more reliable. Researchers should keep in mind, however, that as late as 1914 the Board of Health was still working to increase compliance with the law, and some births went unrecorded."

This birth registry kept by Dr. Wanner offers valuable insight into early 20th Century-America birth documentation.

Registration District No. 337 Year 1914.
